

EPA ID: MOD980631162 Site Name: MALINE CREEK

State ID:

Alias Site Names: CERTAINEED PRODUCTS CORP (FINDS)  
MALINE CREEK ASBESTOS

City: ST LOUIS

County or Parish: ST. LOUIS

State: MO

Refer to Report Dated:

Report Type: SITE INSPECTION 002

Report Developed by: EPA/In House

**DECISION:**

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) NFRAP (No Further Remedial Action Planned)

**DISCUSSION/RATIONALE:**

Change 4 to SPIM FY 2002/2003, made changes to A.A.4, GPRA and Site Assessment that allowed sites being remediated under a State cleanup program to have assigned a FAD designation. (EPA Memorandum, dated September 27, 2002.)

This site is in the State's VCP.

The U.S. Environmental Protection Agency (EPA) has determined that no further remedial action by the Federal Superfund program is warranted at the referenced site, at this time. A NFRAP designation means that no additional remedial steps under the Federal Superfund program will be taken at the site unless new information warranting further Superfund consideration or conditions not previously known to EPA regarding the site are disclosed. In accordance with EPA's decision regarding the tracking of NFRAP sites, the referenced site may be removed from the CERCLIS database and placed in a separate archival database as a historical record if no further Superfund interest is warranted. Archived sites may be returned to the CERCLIS site inventory if new information necessitating further Superfund consideration is discovered.
